Refrigeration / Air Conditioning Service Engineer

£35,000 - £45,000 + Overtime Earnings – depending on experience

RS Refrigeration Services are an ISO 9001 accredited company based near Hook, Hampshire that has been established for over 40 years. Specializing in design and installation of high quality commercial refrigeration and air conditioning systems. With over 40 years' experience, we have built our reputation on maintaining the highest standards of customer service.

We are seeking an ambitious and motivated Service Engineer with a minimum of 5 years' experience servicing and maintaining commercial refrigeration and air conditioning systems. You will need good diagnostic skills and have the ability to attend site alone and complete first time fixes where possible.

We provide service & maintenance packages tailored to our customer base. You will be required to carry out both reactive and preventive maintenance work on commercial refrigeration and air conditioning equipment. We offer a 24-hour breakdown service to our contract customers only. You would share the responsibility for emergency cover with our team of engineers, our stand-by rota is currently 1 week in 7. (very minimal call outs)

We do not work for any Supermarkets.

You must be confident in your ability to complete work to a high standard and build a good rapport with the customers. You will also be computer IT and App literate as all of our jobs are logged and sent to our engineers tablets via Simpro.

Our ideal candidate would meet the following minimum requirements:

- Minimum 5 years practical experience servicing and breakdown works
- NVQ 2 / City & Guilds Refrigeration Air Conditioning
- F-Gas Cat 1
- CSCS / CITB Skills card
- IPAF & PASMA
- Based around RG27 9GR area - 40 mile radius
- Full UK driving license
- Excellent Communication Skills
- Enjoy working within a team as well as alone

This is a 45-hour per week contract paid door to door with overtime paid @ rate of 1.5 Monday-Saturday and double time on Sunday's. You will be provided you with a company van, work phone, tablet, specialist tools, uniform and PPE to ensure you have everything you need to complete your role to the highest standard.

If you have the knowledge and experience required, please apply by emailing sales@rs-refrigeration.co.uk with the subject line 'Recruitment' ensuring you attach your most recent CV along with a scan of your certification and a covering letter which gives details of your relevant working experience.
